

2020 AUGUST

GREEN = CASUAL RIDE

RED = FASTER RIDE

BLUE = BOTH GROUPS

In an effort to allow people to ride in the group they will feel more comfortable in, we are going to ride in 2 different groups. A casual ride which will ride a little slower and shorter, will be shown in *GREEN ITALIC* on this calendar. Then there is the little faster and farther ride which will be in **RED BOLD** on the calendar. The rides in **BLUE** will have both groups staying together, having breakfast, dinner, and spending the evening together, but riding separate. This will hopefully make for a more enjoyable riding experience for everyone regardless of your riding style.

DATE	EVENT	WHERE TO STAY	DETAILS
7/17/20 to 7/19/20	<i>Langlade County Ride</i>	<i>Staying at the Trail Inn on Pelican Lake. DETAILS FOR TYPICAL KMATVA RIDES

Bring your own lawn chairs

FRIDAY

- Plan your driving to arrive at the hotel by 10:00am. Better early than late.
- We should be able to check into our rooms and be ready to ride by 11:00am
- There are plenty of food, drink, and gas stops along the day, but bringing a drink or 2 won't hurt cause there will be a few trail side stops as well. We try to stop at a tavern for drinks and bathrooms but not always.
- The ride plan will be determined the day of but we typically have lunch on the trail and back to the hotel by 6:00pm
- We will meet up with any late arrivals and have dinner together somewhere around 6:30.
- After dinner is lounging around together so hence the lawn chairs.
- There is usually a tavern in walking distance for those who want to dance the night away.

SATURDAY

- For those who want breakfast, please do so by 7:30am at a nearby cafe.
- The main ride for the day will head out at 8:30am from the hotel. Only coming for the day, be ready by 8:30am
- Please be aware with a big group, anyplace you go for lunch will be an hour, so please be *p-a-t-i-e-n-t*. We know it stinks, but small town establishments have small town staff.
- We will ride until about 6:00pm as Friday and have dinner together after the ride, and sometimes ice cream after dinner.
- After dinner is lounging around together so hence the lawn chairs.

SUNDAY (HOLIDAY SUNDAYS DO VARY)

- Most load up Saturday night and simply head out on their own Sunday morning.
- Those who ride Sunday will leave very early to be back by 11:00am

IMPORTANT GUIDELINES TO FOLLOW

- You are representing KMATVA in the scrutinizing eyes of the public so please remember to always stay on the far side of the trail or road route, obey the speed limits, and be respectful.
- If an atv on the trail, or a vehicle on a road, approaches you from behind, please be respectful and slow down and pull off to the side when it is safe to do so to let them pass. Do not wait for the leader to pull over since the leader will be the last one to notice someone from behind.
- Hand signals are very important to let on coming riders know how many people are yet to come, especially the leader and the last. Only if you are comfortable in doing so, let the on coming traffic know how many machines are behind you.
- Wait for the person behind you at a turn. With dust comes a natural separation. There seems to be a tendency to keep up to the person in front of you cause you don't want to get lost. The reality is to keep an eye on the person behind to keep them from getting lost. Enjoy the clear air when you get it, and NEVER make a turn unless the person behind you is stopped and waiting for the person behind them. This is where most of our problems have occurred. If someone in front of you is waiting for you, please stop and wait for the person behind you. We will have catch up points every so often to bunch everyone up.
- If you are lost, DON'T PANIC. Missing an arrow, following the wrong dust, or simply not paying attention, is a very common occurrence. With experience comes the instinctive feeling you know when you are lost, and there may be a few of you lost together. It happens to the best of them. All you have to do is STOP, wait for anyone behind you to catch up, and go back to the last intersection you physically saw the person ahead of you. On the flip side, if you are waiting a long time for the person behind you, and they never show, go back to the last spot you physically saw them. Bingo, you two have found each other. Very simple. NEVER head to the next meeting location even if you know how to get there since half the group will be backtracking looking for you.
- If your machine is having a problem, just stop. Don't ruin your machine to keep pace. If you want the group to stop soon, but not urgent (like to put on or take off a jacket), wait to the catch up point and hold up your hand in the universal stop signal. Need a bathroom stop, at a catch up point, hold up either 1 or 2 fingers to let the leader know the degree of your bathroom urgency to find the next available bathroom.
